

Illés István Kristóf

Emerging Python developer who designs automation from lived HR operations expertise. Builds human-in-the-loop document and workflow tools (FastAPI, SQL, Git) used in enterprise TA contexts — bridging business process and implementation.

PROJECTS

Universal HR HUB — Python / FastAPI

Ongoing · Ericsson context

- Modular HR document factory: vacation calculation, contract template engine ({{tokens}}), print automation addon
- Human-in-the-loop gates before export/print; designed to cut admin burden ~30–40% per user via standardization
- Concepts for KPI dashboards, funnel reporting, ATS-adjacent data sync

Flight Price Tracker — Python

Public · github.com/KrisiBoy

- Autonomous price monitoring, historical trends, notification hooks, scheduled runs

Personal experience hub — HTML / CSS / JS

krisithecoder.hu

- Responsive interactive portfolio with live HR HUB workflow demo

PROFESSIONAL CONTEXT

Talent Acquisition Operation Partner — Ericsson

Apr 2025 – Present

- Builds and supports HR automation; troubleshoots HR systems; collaborates with IT partners in India/Sweden
- Informal Scrum Master on Native AI student team — delivery exposure alongside engineering mentors

TECHNICAL SKILLS

Languages: Python (OOP, data structures, file/system), SQL, HTML5, CSS3, JavaScript (basic)

Frameworks / tools: FastAPI, Pydantic, REST design, Git / GitHub, PyInstaller (packaging context)

Practices: Human-in-the-loop automation, process-first architecture, AI-assisted development with owned validation

EDUCATION & CERTIFICATIONS

BSc Economics — HR Specialization, KRE

2020 – 2024

Optical Network Design & Maintenance diploma

2017 – 2018

IBM/Coursera: Python for Data Science, AI & Development; Introduction to Software Engineering (2026)

Skillssoft: Pythonista · Generative AI fundamentals
